

ECON 321, Assignment 24: Forman, Goldfarb, Greenstein: Broadband

1. Read from the beginning through Section III (A).
2. Using Table 1a, what is the interpretation of a 0.10 increase in each of the IT measures – advanced Internet, basic Internet, and PCs per employee (use the percentage change relative to the mean).
3. Using Table 2 column 3, how large is the increase in the percentage change of wage growth from a 0.10 increase in advanced Internet, basic Internet, and PCs per employee?
4. Read the remainder of the paper.
